

Anonymizer Total Privacy Suite Firefox Edition

Quick Product Facts – Total Privacy Suite by Anonymizer

Protect your identity from hackers and marketers.

Anonymizer Anonymous Surfing hides your trail and prevents online predators from gaining access to your identity while you surf the Internet.

Erase unwanted hidden files and data.

Anonymizer Digital Shredder erases temporary files and improves your PC performance by removing clutter.

Detect and remove spyware and adware.

Anonymizer Anti-Spyware finds and eliminates spyware and adware programs on your computer and prevents them from returning.

Browse safely, easily and efficiently.

Mozilla Firefox Browser empowers you to browse faster with tabbed browsing and an easy to use interface.

Protect your privacy continuously and automatically

Anonymizer Total Privacy Suite – Firefox Edition combines three essential identity protection programs with the powerful Firefox Browser to provide total protection at your fingertips. While you surf the Internet with ease, it works invisibly in the background to defend your privacy. Safeguard your personal, family and financial information from unauthorized access with this easy to use solution.

Defend yourself from online scams

Anonymizer Anonymous Surfing prevents snoops and spammers from gathering personal and confidential information. Defend yourself from unsolicited monitors and phishing scams that try to steal your bank and credit card account numbers. Plus, Anonymous Surfing uses 128-bit patented “Surfing Security” SSL encryption to protect your confidential information and secure the data that you send over a wireless connection.

Detect and remove harmful spyware and adware

Anonymizer Anti-Spyware provides proactive privacy protection by detecting and removing spyware, keyloggers, adware, computer hijackers, and other malicious applications hiding on your PC. This prevents them from stealing your identity, copying passwords or monitoring your activity. Automatic updates provide maximum spyware protection.

Erase unwanted hidden files and data

Anonymizer Digital Shredder removes tracking cookies, or small text files, that are placed on your computer when you visit a Web site and contain a variety of information about you. It also provides military-grade file deletion to ensure your files are completely deleted for total privacy.

Browse safely, easily and efficiently.

Mozilla Firefox Browser enables you to browse the Internet faster with tabbed browsing and Google Search built right into the toolbar. It stops annoying pop-up ads with the built-in pop-up blocker and prevents harmful ActiveX controls from loading on your PC.
